# THE LINUX

## COMMANDS HANDBOOK

### **Table of Contents**

#### Preface Introduction to Linux and shells man Is cd pwd mkdir rmdir mv ср open touch find In gzip gunzip tar alias cat less tail WC grep sort

#### ср

You can copy a file using the cp command:

```
touch test cp apple
another_apple
```

To copy folders you need to add the \_\_r option to recursively copy the whole folder contents:

```
mkdir fruits cp -
r fruits cars
```

```
administrator@GFG19566-LAPTOP:~/practice$ ls
a.txt b.txt
administrator@GFG19566-LAPTOP:~/practice$ cat a.txt
hello welcome to gfg
administrator@GFG19566-LAPTOP:~/practice$ cat b.txt
hello
administrator@GFG19566-LAPTOP:~/practice$ cp -f a.txt b.txt
administrator@GFG19566-LAPTOP:~/practice$ cat b.txt
hello welcome to gfg
```
